AMENDMENT

Sir:

In response to the Office Action mailed December 12, 2001, Applicant respectfully requests reconsideration of the above-identified application in view of the following amendments and remarks.

Please amend the above-identified application as follows:

In the Claims

Please rewrite the claims as shown.

1. (Amended) A method for inhibition of corrosion of a metal which experiences active-passive transition in contact with an electrolyte comprising:

incorporating one or more hydrogen peroxide donors with said electrolyte at a concentration effective to inhibit corrosion by inducing passivation of a surface of the metal.
